

CONTOUR

V · blade

VERY PRECISE HIGH-SPEED CUTTING

- Revolutionary acceleration of 5 m/sec^2
- Time efficient
- Flexible use in production

incredible precision

Revised 360° knife turning unit for accurate cutting of small-scaled details with minimal tolerances.

Very high productivity

With a maximum cutting speed of 100 m/min., depending on the material to be cut.

Longer lifetime of knives

Longer lifetime for knives than the current Bäumert standard can provide.

Revolutionary acceleration

Faster work progresses due to a super fast acceleration of 5 m/sec^2 .

Time efficiency

Service-oriented design allows full access and creates time savings when changing the knives.

CONTOUR V-BLADE

The Contour V-blade consists of a stationary cutting unit with a 360° knife turning unit. It includes an integrated knife guiding and a reversing belt system. The service oriented design offers information on the machine and order status any time. The Contour V-blade combines high speed, precision and durability for a flexible product range with volume weights of up to 200 kg/m³.

TECHNICAL DATA

	Standard	Option
Width	2.200 mm	
Height	1.300 mm	
Length	2.400 mm	3.050 mm, 3.500 mm, 5.000 mm
	<ul style="list-style-type: none">- Block edge detection- Adjustable knife speed- Cooling unit- Table with continuous belt- SOPHIE access	<ul style="list-style-type: none">- Stripping device- Motor-adjustable upper knife guide- Roller holding-down device- Loading and unloading conveyor- WinCAP- Fleece fiber extraction- Motor driven grinding unit

We would be happy to prepare a non obligation offer.
